OF REGULATORY AFFAIRS

TOPRA – The Organisation for Professionals in Regulatory Affairs

Ref: BASVET/12

A one-day foundation course for very new recruits, PAs, administrators and support staff in Veterinary Regulatory Affairs and other related areas such as Medical, Manufacturing, Marketing etc. Suitable for staff in agencies and companies.

The purpose of the day

The world of Veterinary Regulatory Affairs can be a confusing and complex place, particularly if you have no formal Veterinary background.

The purpose of this Basics course is to provide you with a clear and concise understanding of the role played by Regulatory Affairs in obtaining and maintaining Marketing Authorisations for Veterinary products.

For more information, please visit www.topra.org/vetbasics

The course tutors

All of the tutors on this course have many years Regulatory Affairs experience and will be taken from, the European Medicines Agency, Veterinary Medicines Directorate (VMD), UK and from regulatory consultants currently working in the industry.

Our promise

We guarantee you will leave the course with a better understanding of the Veterinary regulatory process and your role within it.

What you will learn

- Overview of Veterinary Drug Development
- The work of the National Agencies in Europe
- Marketing Authorisation Applications: what is in them?
- European Regulatory Procedures
- Variations, Renewals and Pharmacovigilance

And there will be quizzes and prizes too!

This course will give a basic grounding in a relaxed, enjoyable environment.
